<b>Target version:</b>	v2.0.0 - Post-Migration Issues	<b>Spent time:</b>	0.00 hour
<b>Easy Pickings:</b>			

#### Description

Instead of having the FAQ page be a StaticPage, we should add a database model for FAQs, with fields for Questions, Answers, & the Ordering.

That way we can custom render the page and include the FAQ structured data markup:

<https://developers.google.com/search/docs/data-types/faqpage>

This will let our questions & answers show up as rich results in Google searches & search ranking of our site.
